ENES ÜNLÜ
Senior Frontend Developer

+90 541 312 9792 | enes9103@gmail.com | https://github.com/enes9103
https://www.linkedin.com/in/enesunlu/

Senior Frontend Developer with Full-Stack Experience specializing in crafting dynamic and responsive user interfaces using technologies like **JavaScript**, **React.js**, **Next.js**, and **TypeScript**. Expertise in developing visually appealing and mobile-friendly designs with modern CSS libraries and frameworks. While focusing on frontend excellence, also experienced in backend technologies such as **Node.js/Express.js**, enabling a comprehensive approach to delivering scalable solutions. Skilled in optimizing performance, ensuring cross-browser and cross-platform compatibility, and creating seamless user experiences. Passionate about staying updated with emerging technologies, collaborating with teams, and driving projects to success.

PROFESSIONAL EXPERIENCE

Trive Investment B.V. Istanbul, Turkey   **Feb 2024 - Present**
Senior Frontend Developer

- Played an instrumental role in developing the infrastructure for finance and exchange transactions in a large-scale web application. Successfully modernized Partners Portal's web infrastructure, leveraging **React.js, Next.js** and **Redux** to create a dynamic platform for finance reporting and high-volume data transactions.

Pegasus Airlines via Nexum Boğaziçi, Istanbul, Turkey   **Mar 2023 - Feb 2024**
Frontend Developer

- Developed critical features using **React.js**, **Redux Toolkit**, and **JavaScript ES6**, including a fast and interactive flight search, secure routing, and a user-friendly reservation system. Led the creation of core search components from scratch, greatly enhancing user experience and site interactivity. Followed Agile methodologies, utilizing **Jira** for project management, **Teams** for collaboration, and **Git/GitHub** for version control.

Hyperdev Technology, Istanbul, Turkey   **Jun 2021 - Mar 2023**
Frontend Developer (React.js)

- Developed user-friendly, responsive web applications using **JavaScript ES6, React.js, Next.js, TypeScript, Storybook, Redux Toolkit,** and various **CSS libraries (SASS/SCSS, Bootstrap, Material UI, Tailwind CSS).** Played a key role in a large-scale web application, implementing critical features such as authentication, user data flow, route protection, multi-filtering, finance management screens, and vehicle search steps. Utilized React-router and Axios for efficient API requests and state management.

Multiple Company (Freelance)   **Feb 2020 - Jun 2021**
Frontend Developer / Fullstack Developer

- Gained extensive experience in end-to-end and frontend development through numerous projects. Developed full-stack applications using the **MERN stack (MongoDB, Express.js, React.js, Node.js)** and focused heavily on **React.js** and **Next.js** for frontend development. This freelance experience allowed me to work across diverse industries, providing valuable insights into different applications and enhancing my adaptability and problem-solving skills.

PROJECTS

#1 *Pegasus Airlines* ***Click to go..***

The objective of the Pegasus Airlines Infrastructure Project was to modernize the web infrastructure, enhance performance, and improve user experience. The project involved creating impressive user interfaces using the React.js framework and managing data flow using Redux Toolkit, a state management library. By strengthening the web infrastructure, the project enabled Pegasus Airlines to successfully develop critical components such as fast and interactive flight search, secure route protection, and user-friendly reservation system. This project empowered Pegasus Airlines with a robust web infrastructure, resulting in efficient flight searches, secure route protection, and a user-friendly reservation system.

#2 Trive International Partners Portal ***Click to go..***

Led the end-to-end development of the Trive Partners Portal, a comprehensive platform designed for efficiency and scalability. My responsibilities included setting up the infrastructure, architecting the frontend with React, TypeScript, and Redux, and optimizing service request performance throughout the development phases. Delivered a responsive, high-performance application by implementing robust solutions and ensuring seamless functionality, effectively meeting both user and business needs.

#3 Paribu Cineverse ***Click to go..***

As a Front End Developer, he was able to play a pivotal role in implementing the front end features of Paribu Cineverce, an innovative web application designed to revolutionize customer experience. By focusing on perfect pixel integration and perfect infrastructure compatibility, we contributed to the implementation of the project by contributing to the successful execution of the order and reservation processes. Throughout this process, valuable experience was gained in teamwork, using version control and project management tools to ensure seamless collaboration. Overall, participation in Paribu Cineverce allowed us to showcase expertise and contribute to creating an outstanding user experience using the latest technologies.

#4 PayOto Vehicle and Real Estate Sales and Financing Consumer App ***Click to go..***

PayOto is a real estate purchase, sale and financing project developed by the company itself. It consists of five different applications, each serving a specific purpose. As a React.js developer, contributed to the Consumer, Customer and Operation Services applications as well as the Finance Management Panel. For the project created using React.js and Next.js, starting from minimum component kits, API service connection, authentication processes and all other processes required to complete the project were developed.

#5 You can visit my github address for my other projects. ***Click to go..***

CERTIFICATES

Full Stack Developer Certificate
IT Bootcamp in USA

- A 700-hour course that covers Information Technologies Fundamental, Frontend and Backend. Attended weekly live group mentoring sessions with a software developer experienced in the industry and completed comprehensive capstone projects.
- Mastered skills in HTML5, CSS3, SAAS, Bootstrap, MUI, JavaScript ES6, React.js, Next.js, Python, Django, Node.js Express.js, Restful API, Redux, Redux Saga, Redux Toolkit, Postman, Firebase, PostgreSQL, SQLite, MongoDb, Cypress, Object-Oriented Programming, Git & Github

EDUCATION

Sakarya University / Sakarya, Turkey   **July 2015**
Educational Programs and Teaching Methods (Master Degree)

Anadolu University / Eskisehir, Turkey   **July 2014**
Business Administration (Bachelor Degree)

TECHNICAL SKILLS

- **Front-End Development**: JavaScript, React.js, Next.js, TypeScript, Redux, Web3.js, SASS, Bootstrap, MaterialUI, TailwindCSS, Storybook
- **Back-End Development**: Node.js, Express.js, SQL, MongoDB, Python, Django
- **Tools & Methodologies**: Git/GitHub, Agile, Jira, SDLC, Cypress, Jest
- **Others**: Solidity, SAP (FI, MM)
